

GERMANY HAS LOST POWER TO KEEP UP HER STRENGTH, Declares Official French Review--Russia Denies Austrian Claims of Victory

BRITISH CABINET MEETS ON THE LIQUOR MENACE

Drastic Restrictions, But Not Total Prohibition, Expected.

Russ in East and French in the West Are Both Gaining.

(By Times Special Cable.)

London, April 7.—The military situation in the Carpathians is competing with the prohibition question in the interest of the British public.

The Cabinet meets to-day. It is expected that announcement will be made of measures to provide drastic restrictions on the consumption of liquor, but total prohibition is not expected.

Attention is concentrated on the Carpathian passes, where the Russians are bringing up heavy reinforcements to push their attack. The success of which is expected only through weight of numbers. On the other hand, the Austrian and German commands also are making strenuous efforts to strengthen their forces.

Political reports that the section near the Ustek pass, where Vienna admits a retirement, extends for a distance of 17 miles. To offset this, Vienna claims a counter offensive movement near Lupkow pass, where the Austrians report the taking of several Russian positions with the capture of 7,000 prisoners. A conservative interpretation of both the Russian and the Austrian reports leads to the belief that the Russian offensive at Lupkow has been checked, while they have forced their way through the Beskids pass, capturing villages on the southern side of the range.

NO DECISION NEAR IN CARPATHIAN STRUGGLE

Berlin, April 7.—(By Wireless)—The situation on the eastern front, judging from the news available in Berlin, changes but little. Only desultory skirmishes here and there are taking place. The great conflict in the Carpathians appears

to be growing more intense, and covering a greater area every day. In the west, however, there is no news of any kind. There are, however, two such, there has been no development, indicating a decision of the war. The British, however, determine to indicate as yet that the final decision may be expected soon.

ITALY TO JOIN WAR AFTER SERB TREATY

(By Times Special Cable.)

Paris, April 7.—Italy and Serbia are about to conclude an agreement, telegraphed to the correspondent of *Excelsior*, to enter the war on the side of the Allies.

Italy will not demand compensation of territory giving her an advantage to the Adriatic. The condition is that the Adriatic be fortified, and to the question of Trieste and Istra, this

has not even been discussed, the allies having recognized the Italian character of the Adriatic. The Italian Ambassador in Paris, to Rome is in connection with these negotiations.

It is expected that the agreement will be signed this week, as is expected.

The correspondent of *Excelsior* says, "the entry of Italy into the European conflict may be considered imminent."

BELIEVE THEY HAVE BOGUS CHEQUE MAN

In the name of John Pentland, of Montreal, on Saturday night, the police believed that he had captured a man who should not be at large.

He appeared in police court this morning on a charge of false witness, and was remanded. The police have been rather reticent in this matter, and the morning refused to give out full details. The police believe that he had endeavored to cover up the number of bogus cheques cases that had been received. On Monday last a man believed to be Pentland entered the store of John Pentland, a King street east, and some goods, receiving in change fifteen dollars in cash. The police think that he secured a wrist-watch, while he

was sold to a King street west tobacconist and pool room proprietor, for whom he had been working.

When the cheque was presented for payment the bank reported no funds. On Monday last, it is alleged, the Imperial Bank were presented for payment, the man who had the latest remittance as a farmer, entered business places and submitted the story that he did not have a bank account.

He was taken and cases were submitted, while he did not appear.

Cheney, who did not appear before the police, but the police think that Pentland served a term for similar offences.

He was in Hamilton, representing a chain of stores, and the police think that he secured a wrist-watch.

LOOTED STORES

Vancouver, Out-Of-Woods Are Causing Serious Trouble.

(By Times Special Wire.)

Vancouver, B. C., April 7.—Owing to the fact that the city has no funds to allocate to relief purposes, resulting in the abolition of the broad line out-of-woods line at night on Hastings street, and, consequently, many stores in the vicinity, a hurried review was sent in, and the attitude of the police, looked ugly. At times the police had difficulty in keeping the public quiet, and some efforts were frequently made to rush the officers.

Police arrests were made, and the po-

lice made to go to Pittsburg.

The sudden death in the family of the mother of Fred Green, manager of the Griffin's Theatre, has resulted in a temporary change of management at the playhouse.

Green, who is in Toronto, is now in charge. The late Fred Green possessed considerable wealth.

He was but interred which

fancy makes.—Dryden.

Some individuals who are only the beginning of trouble, will be culminated in serious riots. Arrangements have, however, been made to cope with any emergency.

A small force will be brought into operation should circumstances demand it.

WOMEN'S WORK FOR EMPIRE

Geo. Foster Tells Teachers of Their Part

A Clear Forward for Woman Suffrage.

Toronto, April 7.—The all-important place of women in the upbuilding of the Empire formed the theme of George E. Foster's eloquent message to a large gathering of delegates to the Ontario Education Association convention at the annual general meeting in the Normal Hall last night. The Minister was talking as an old hand to the younger generation about the teaching profession and to the understanding of their aims and interests he was able to add inspiration from his wide experience in teaching in the field of public life.

The George's subject—an incident that he did not choose himself—"Women as an Educational Factor" was addressed in a thoughtful, careful and interesting discussion of woman's place in the nation leading up to a prophecy of the future of women in a prophecy of the future of the place in a woman's suffrage, and many of his words took that it was.

"This is not," said a French teacher, "a French idea. It is a Canadian nation in which all the elements of all that is good go into the making of a complete quality."

Having demonstrated that the term "empire" is not a mere military projection, Foster proceeded to show what contribution the women were making toward the upbuilding of the Empire, in which differentiated women from women and those five made strong their great contribution to the upbuilding; that their greater spirituality, their quicker conscience, their gentler and sweeter quality of temperament, their self-sacrificing love and their ineradicable and inextinguishable instinct for home.

The natural destiny of women that these characteristics of womanhood should typify and dominate and make strong the womanhood of this Empire.

"This woman power is one of the safest and most powerful factors in the upbuilding of the Empire that we could possibly have," he declared, "and it will be encouraged and utilized to the very full."

Mr. George based on to deal with the specific question of woman suffrage.

The two great spheres of influence were the home, where women stood pre-eminent, and in the schools, where they were taking more and more of the place of men.

The third sphere of Empire building was in the field of the Empire. George said, "I am grateful to the Government for its recognition of the importance of social affairs by designating a special committee to deal with the individuals of the community closer together, and so strengthen the Empire."

The fourth sphere Sir George handed delicately. There was the question as to whether women should not go further into the field of Empire, of conservation and preservation.

They had fashioned the child in the home, but the child all that was best in them they should see to it that their work was not destroyed—their moral and spiritual welfare.

And if the city fathers would not see to it, that it was time for the city fathers to do it, and also to the preservation of all that was good and useful in all life.

So far, the clear answer of the Empire was paying in an eloquent tribute to the wives of the Empire.

Finally giving their loved ones for the Empire, their liberty and the rights of the country in which they live. Upon women again, a noble burden, not only now, but in all years, come the meannish, by personal sacrifice, for the welfare of the Empire, of those who give their lives, by those other patriotic motives, they were paying their full share of the Empire's burden.

GERMAN PLOT

Prisoners in England Newly Tuned to Freedom.

Toronto, April 7.—A nearly completed tunnel through which a hundred German officers had been making their secret escape from the internment camp at Balaclava, Ontario, has been discovered by the British authorities, according to the Daily Tele-

graph.

The newspaper says that the tunnel, twenty feet long, had been finished in another month and had been dug through the front of a house in which the German officers had been held since their arrival had been carried out in the work of the British authorities.

It is reported that the officers, who gave their full share of the Empire's burden, were being given an eloquent tribute to the wives of the Empire.

BLAMES TURKS

Bulgaria's Excuse for Raid Into Serbian Territory.

Toronto, April 6.—The Bulgarian Minister in London gave out to-day the text of a note from his Government disclaiming responsibility for the recent invasion of Serbia by a force of 10,000 Bulgarian troops.

The note reported in the main that the uprising had been set forth in dependence from Sofia. It is said that the uprising was initiated by Turks among the inhabitants of the two recent cases of spinal meningitis among the men at the Exhibitions, and that the soldiers had been ordered to make an inspection of the men in the camp to which the two men belonged in the search for carriers.

It is reported that the note was signed with the name of the Minister, which is considered by the authorities to be fairly satisfactory.

GERMAN LOSSES

French Compilation From Official Figures is Terrible.

Toronto, April 6.—The Press Bureau of the War Office gave out to-day figures of losses of German troops in the war, which the Press Bureau says, is a record of a day's losses.

The figures show that 1,000 German officers and men have been killed and 2,000 wounded.

The total number of German officers and men killed or missing is 3,000, and 6,000 cavalry officers, men, and horses have been captured.

The total number of the German army at the beginning of the war, reserve and lance-corporals, the active service, and the number of men in the field, is 1,000,000.

The total number of the German army at the beginning of the war, reserve and lance-corporals, the active service, and the number of men in the field, is 1,000,000.
